

IMMER SEAL

IMMERSEAL is a high security cable seal engineered for maximum tamper resistance and clear visibility. It is ideal for demanding environments where security, traceability, and quick inspection are critical.

The seal features a solid zinc lock housing overmolded with dual-color ABS plastic, enhancing visibility and ensuring easy identification, including smooth barcode scanning. Its steel cable is designed with a welded tip for effortless insertion and secure locking.

A key security feature of IMMERSEAL is its tamper-evident cable once cut, the cable frays visibly, providing immediate indication of unauthorized access.

Material

- ◆ Body – ABS
- ◆ Cable – Steel Cable

Printing & Marking

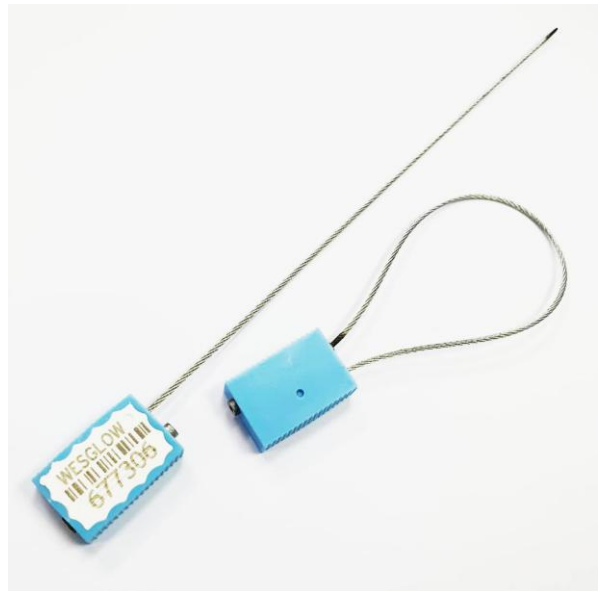

- ◆ Laser
- ◆ Name / Logo
- ◆ Sequential Numbering
- ◆ Barcode

Applications

- ◆ Container / trucks
- ◆ Refineries
- ◆ Oil Tankers

Properties

- ◆ Average Breaking Strength : 110 kgs
