

INTEGRIP

INTEGRIP is a modern plastic encapsulated cable seal engineered for reliable tamper evidence and ease of use. Lightweight yet strong, it features a robust locking mechanism housed in durable ABS plastic, ensuring secure and long-lasting performance.

The steel cable includes a welded tip for smooth application and firm locking. A key security feature is its tamper evident design: the cable frays visibly when cut, immediately signaling any unauthorized access. This single-use seal is ideal for protecting high-value goods across industries where both strength and visual integrity are essential.

Material

- ◆ Body – ABS
- ◆ Cable – Steel Cable

Printing & Marking

- ◆ Laser
- ◆ Name / Logo
- ◆ Sequential Numbering
- ◆ Barcode

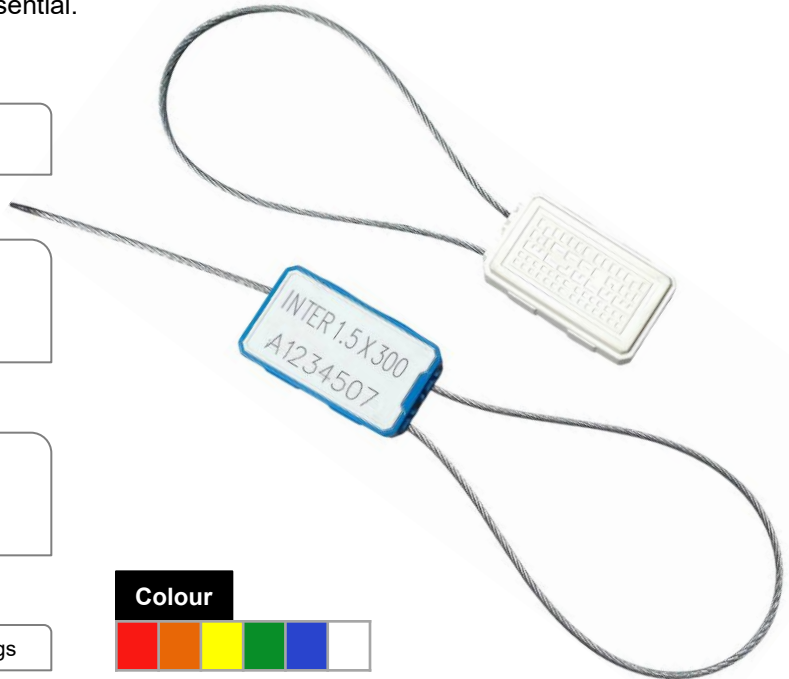

Applications

- ◆ Container / Trucks
- ◆ Refineries
- ◆ Oil Tankers
- ◆ Carts

Properties

- ◆ Average Breaking Strength : > 180 +/- Kgs
