

METERKLIP

METERKLIP is a compact security seal crafted from high-quality polycarbonate (PC), designed for clear tamper indication and reliable locking. Its transparent body allows for easy visual inspection, making tampering immediately noticeable.

Featuring a dual anchor mechanism, METERKLIP ensures strong and secure locking for utility meters, valves, and other critical access points. Lightweight yet durable, it provides both visibility and dependable protection for industrial and utility applications.

Material

- ◆ Polycarbonate (PC)

Printing & Marking

- ◆ Laser
- ◆ Name / Logo
- ◆ Sequential Numbering
- ◆ Barcode

Applications

- ◆ Utilities Meters
- ◆ Utilities Valves
- ◆ Oil Tankers
